

Learning Agenda and Annual Evaluation Plan Comparison

Learning Agenda	Annual Evaluation Plan
 Systematic plan for identifying and addressing priority questions relevant to the programs, policies, and regulations of the agency Should include short- and long-term strategic questions (i.e., questions about how the agency meets its mission) and operational questions (i.e., questions about the agency's operations like human resources, grant-making procedures, and internal processes) Part of the Agency Strategic Plan 	 Describes the evaluation activities the agency plans to undertake in the fiscal year following the year in which the evaluation plans are submitted (i.e., FY 22 plan published in February 2021) Includes the "significant" evaluations related to the agency learning agenda and any other "significant" evaluations, including those required by statute Agencies have flexibility to define "significant" Plans will be published annually in conjunction with Annual Performance Plan
Time Period Covered	
 No less than four years 	 One year
Stakeholders to be Engaged	
 Agency staff who play a role, have a stake in, or will use results of learning Agency leadership OMB Public* State and local governments* Representatives of non-governmental researchers* Federal grant recipients Congress Industry and trade groups * required by statute 	 Agency staff who play a role, have a stake in, or will use results of evaluation activities Agency leadership Other stakeholders, as appropriate
Required Contents/Sections	
 Strategic Goals and Objectives that the Learning Agenda will Address Priority Questions to be Answered Activities that the Agency will Engage in to Address Priority Questions Timing of Learning Agenda Activities Potential Data, Tools, Methods and Analytic Approaches to be Used to Answer Priority Questions Anticipated Agency-Specific Challenges and Proposed Solutions to Developing Evidence to Support Agency 	 Questions to be Answered Information Needed for Evaluations Methods to be Used and Evaluation Design Anticipated Challenges Dissemination
Evidence Activities to be Included	
 Expectation that agencies include all different types of evidence to answer priority questions: (1) policy analysis, (2) program evaluation, (3) foundational fact-finding, and (4) performance measurement. Evidence-building activities should align to question being asked. 	 Program evaluations (per definition in OMB M-20-12) Other evidence activities may be included in the plan as context, but this is not required and non-evaluation activities may not replace evaluation activities
